DENTISTRY FOR INSTITUTIONS

Quality dental care on site

Curative dental care for vulnerable groups. 100% transparent. 100% budgeted in advance. Conventional rates. Or bulk billed at the lowest price in Europe. Full transparency and a coordinated dental care system.

Mobile Dentists

Mobile Dentists provides care programmes tailored to each target group, using high-quality treatment equipment, curated consumables and a specialised treatment team. For private organisations, public authorities and companies, we deliver dental care at the most competitive rates in Europe and through an appropriate financial structure.

01
One integrated care pathway
From planning and patient registration to treatment, reporting, pricing and collection.

02
Curative treatment
Pain, infections, caries, tooth loss and functional oral problems are actively treated.

03
100% transparency
Digital registration and monitoring make quality, delivery, care needs and impact fully visible.

THE COMPLETE SERVICE INCLUDES

- **Carefully selected dentists,** assessed on clinical skills, professionalism and patient-centred care;
- **High-quality mobile treatment units,** with the same functionality as a conventional dental practice;
- **An optimised digital environment:** transparent patient records, consultation reports and informed consent;
- **Planning, operational coordination, pricing,** third-party payment arrangements and collection;
- **Advance cost estimation** based on target-group research and monitoring of the total cost.

EXPERTS IN PAIN RELIEF AND CURATIVE CARE

Whenever possible, every patient continues through a coherent care pathway rather than merely being examined or referred.

Even for assignments focused mainly on acute pain relief, we record and report each patient's oral health status. This gives the institution a practical overview of existing care needs and the necessary follow-up care.

AFFORDABLE AND TRANSPARENT FINANCING

EasyBulk for Public Authorities
Bundled care and financing for large, clearly defined target groups, such as residents of reception facilities or people in detention.

EasyForfait for Cities and Municipalities
A predictable fixed-fee care model that supplements health insurance and gives institutions certainty about the total cost of care.

100% TRANSPARENCY ON QUALITY

Every consultation, treatment and follow-up step is digitally recorded and monitored.

The institution can always see what has been delivered and what care is still required.

YOUR INSTITUTION GAINS INSIGHT INTO

- consultations and treatments delivered;
- the oral health status and treatment needs of the target group;
- continuity of follow-up care;
- a cost known in advance.

ONE PARTNER. ONE INTEGRATED SERVICE.

CARE THAT IS ACTUALLY DELIVERED.

ALL-IN

DENTISTS • EQUIPMENT • MATERIALS • DIGITAL RECORDS • COLLECTION

Everything in one coordinated service, tailored to your institution and target group.
